301 Dustop

Compact industrial vacuum cleaner for dust

The Mistral 301 Dustop is a unique industrial vacuum cleaner in its segment.

This incredible industrial vacuum cleaner effectively combines the advantages of robustness , power and filtration efficiency of a real industrial vacuum cleaner, with the handling, comfort and user-friendliness of a typical commercial vacuum cleaner .The Mistral 301 Dustop was developed by Delfin in collaboration with its customers who required the excellent performances of the largest industrial vacuum cleaners in a more compact body.Hence the Mistral 301 Dustop was born, equipped with a powerful single phase Lamb-Ametek motor, a very solid steel chassis (also available in stainless steel) and a completely modular multi-stage filtration system. Thanks to a modular design, this vacuum cleaner can be equipped with a high efficiency filter bag, a primary cartridge filter with a large filtering surface (certified for class L as standard), a class H Absolute filter (HEPA) or with a variety of special filters , specifically designed for specific applications (eg. NOMEX filter for suction of hot materials , TEFLON filter for suction of muddy materials , etc.).Ask for more information on this incredible vacuum ! Click on the button below.

Power	V	230 1~
Frequency	Hz	50
Power	kW	1,15
Depression	mmH2O	2500
Airflow max	m3/h	180
Surface	cm2	6000
Filtration class (primary filter)	(IEC 60335-2-69)	M
Filter surface (HEPA filter)	cm2	11150
Filtration class (HEPA filter)	(EN1822)	H14
Air load on primary filter	m3/m2/h	225.00
Capacity	lt	13
Suction inlet diameter	mm	50
Sound level	dB(A)	72
Dimensions	cm	48 X 46 X 85 h.
